

Accessories - Tooling

LC Switchable HD Tool

- ✔ The LC Switchable HD Tool allows polarity change within an LC Duplex connector out in the field, Having the ability to switch from positions A ~ A to A ~ B.

MTP® Housing Removal Tool

- ✔ The MTP® Housing Removable Tool allows for easy and efficient polarity change out in the field. Instructions of use:
 1. Insert MTP® assembly into tool until it latches in place
 2. Squeeze extractor pins together
 3. With extractor pins squeezed together, grasp boot/spring push assembly and remove from housing

MTP® Loopback

- ✔ MTP loopbacks are specially designed for testing of MPO parallel links
- ✔ By creating a loop of signal from transceiver to receiver within one MPO plug it forms optical link which allows testing of optical network segment by segment

MTP® Push-Pull Tab

- ✔ The Push-Pull Tabs greatly simplify the use of MPO connectivity when manual access to the release slider, when rear portion of the connector is restricted.
- ✔ This Accessory enables easy insertion and extraction of MTP® brand plugs in dense applications by providing a flexible extension tab which can be used to extract as well as insert the plug into the adapter port.
